EDUCATION

Bachelor Of Science in Computer Science and Engineering <i>Jashore University of Science and Technology</i>  CGPA: 3.78/4.00 (till current semester)	08/2023 – Present Jashore, Bangladesh
Higher Secondary Certificate <i>Blue Bird School and College</i>  GPA: 5.00/5.00	01/2021 – 01/2023 Sylhet, Bangladesh
Secondary School Certificate (Dakhil) <i>Fatehpur Kamil Madrasa</i> GPA: 4.89/5.00	01/2018 – 03/2020 Sylhet, Bangladesh

SKILLS

Technical Skills:

- **Programming Languages:** C++, Python, C#, SQL
- **ML/Data Science:** Pandas, NumPy, Matplotlib, Seaborn, scikit-learn
- **Frameworks:** STL, FastAPI, Streamlit, Gradio, .NET, ASP.NET Core
- **Tools:** Git, Github, VS Code, Jupyter Notebook, Google Colab, N8N, Kali Linux, Postman, Claude AI, Gemini, ChatGPT

ACHIEVEMENTS AND PROBLEM SOLVING

I have solved **2400+ Data Structure and Algorithm** problems across various online judges and Participated in 100+ Online Programming contests.

- **Codeforces Profiles (Current  and Previous )**: Max rating 1471, Problems solved 1520 (Combined)
- **Leetcode Profile:**  Max rating 1739, Problems solved 144
- **Codechef Profile:**  Max rating 1669, Problems solved 326
- **Vjudge Profile:**  Problems solved 313
- **CSES Profile:**  Problems solved 85
- **Champion** in JUST intra University Programming Contest 2025
- **Completed CSE Fundamentals with Phitron** 9 months long course with 99.69% Grade points
- **Completed Data Science and ML with Phitron** 6 months long course with 90.63% Grade points

PROJECTS

Insurance Premium Predictor | Python, FastAPI, Scikit-learn, Pandas, Matplotlib, Streamlit

- Developed and deployed a full-stack ML web application to predict health and car insurance premium categories from user input.
- Trained and evaluated Random Forest models on car and health insurance datasets using feature engineering, preprocessing pipelines, and model serialization.
- Built a FastAPI-based inference backend and integrated it with a Streamlit frontend for real-time predictions and analytics.
[Github Repository](#)  , [Live Demo](#) 

Personality Classifier | Python, FastAPI, Gradio, Scikit-learn, pandas

- Built a Personality Test Classifier that predicts Introvert or Extrovert using 7 social behavior features from a dataset of 2,900 records.
- Trained a Random Forest model with preprocessing and tuning, achieved 92.93% test accuracy, and deployed it as a Gradio app on Hugging Face Spaces.
[Github Repository](#)  , [Live Demo](#) 

Employee Management System | C#, .NET

- Developed a CRUD-based HR management application for handling employee records.
- Implemented employee onboarding/offboarding, salary adjustments, and monthly payslip generation.
[Github Repository](#) 

ADDITIONAL SKILLS

Languages: English (Fluent), Bengali (Native), Hindi (Conversational)

Soft Skills: Analytical thinking, Team collaboration, Adaptability, communication

Core Competencies: DSA, OOP, Machine Learning, Workflow Automation, DBMS, Agentic AI Tools
